November 1, 2020

Dear Member,

We appreciate your support of the Oklahoma Rural Water Association. As a valued member, your membership dues help to sustain important training, technical assistance, legislative programs and many other programs that benefit system members. Programs include our Apprenticeship Program, Leak Detection Program, Source Water Protection Plans, ORDFC short term loan program, ORWA's Assurance Group, Worker's Compensation and more.

Each year, ORWA makes more than 4,200 on-site technical assistance visits to small water and wastewater systems. The visits assist with a wide array of distribution, treatment and other important system needs, as well as improving system operations, growing revenues, lowering expenses and losses and enhancing system compliance. Your continued support has helped system directors to receive OWRB approved board member training and operators and managers to receive the ODEQ approved certification or renewal training hours for license requirements.

ORWA would like to thank you for your support of the ORWEF Scholarship Fund. Last year, the Oklahoma Rural Water Enrichment Foundation awarded 25 scholarships to deserving and qualified students throughout the rural areas of Oklahoma. ODEQ recently granted ORWA the opportunity to revitalize and administer the SoonerWARN Program, which you can sign up for at SoonerWARN.org. We continue to grow our efforts to reach out to our rural water and wastewater members to assist in developing and implementing a plan for your system's success. Your continued support will help build a stronger, more effective association to serve you and represent your views on important issues. Please review the enclosed list of services provided by ORWA.

In the next decade, the water and wastewater industry stands to lose approximately 30-50% of the workforce to retirement. Due to the aging workforce and continually changing technology within the industry, ORWA has established a registered Apprenticeship Program. It is our goal to provide a consistent level of training, knowledge, and skills to potential employees coming into the water & wastewater industry. Through the program, we will also educate the younger generations on the importance of the industry, in order to create a sustainable workforce for water and wastewater systems throughout Oklahoma. If you would like to contribute to the Apprenticeship program, please indicate the amount on the enclosed membership form. Thank you for your support.

We continue to implement our long range plan that will facilitate sustainability for our member systems. We are working closely with ODEQ, OWRB and other agencies that are supportive of our program.

Please complete the enclosed membership form and return it with your check today or visit our website at orwa.org to download the 2021 membership form. If you should have any questions about ORWA, or if you wish to inquire about any of our programs, please call the ORWA office at 1-800-375-6792. Don't forget to follow us on Facebook at www.facebook.com/ORWAOK.

We appreciate the opportunity to serve you and look forward to working with you in the coming year. Thank you for your continued support.

Sincerely,

A handwritten signature in black ink, appearing to read "James Gammill".
